# VENTURE.

This well-known Trotting Stallion is now standing at the corner of Punchbowl and Queen streets, and breeders, horsemen and stock-owners should take advantage of the opportunity to obtain his blood while they have the chance. He is now looking and feeling nearly as well as he ever did in his life, and moves as lively

It does not require a great horseman to discover great points of excellence in VENTURE. The ordinary citizen, upon beholding him, will be impressed immediately with his grand make-up, magnificent length, and elegant fisish. If he is not the greatest horse that ever came to this country, he is surely one of the greatest, and as a turf performer, he towers as far above them all as he does above a sucking colt in statue. A great deal of importance has lately been attached to the value of a horse that is being kept for stock purtory. Fort Street, will be able in its settled quarters to do even more satisfactory
work than that which has gained it such

Now, we will see, for curiosity, how near VENTURE comes to possessing these three qualifications, say; Breeding, performances and performances of his get.

As to breeding, he is the peer of any horse on earth, and I don't except the great Hermit, who is the most ular stallion in England, and whose service fee is £500, he being the sire of three Derby winners.

As to his own performances, he meets the requirements, having a public record of 2127K-2130 being the

With these facts before us, VENTURE looms up as one of the greatest horses, not only in this but in any other country, and the day is past when people will breed anything but the very best; and while the death of two such great horses as Boswell and Bazaar is greatly deplored by all true horsemen, still it is a great consolation that there is so good a horse as VENTURE to fill their place.

sheet music are neatly and simply or elegantly and sumptuously bound, as taste and pocket may demand. Old

VENTURE is an aged horse, but he is one year younger than Dictator, who was sold only last rear in Kentucky for \$25,000, on the strength of his being the sire of Jay Eye See. His stud fee is \$300. He is also ten years younger than Volunteer (sire of St. Julien), whose fee is \$500. All things taken into consideration, I cannot see why VENTURE is not as desirable a horse to breed from as any of them, or why he is not as worthy of the patronage of the public. Below I will give his pedigree, of which I invite a comparison with that
